PROFESSIONAL SUMMARY

Data Science graduate with hands-on experience in building AI/ML solutions, backend workflows, and AWS-based cloud infrastructure. Experienced in developing supervised learning models, designing ETL pipelines, and deploying scalable machine learning workflows. Strong foundation in Python-based backend systems, data-intensive applications, and cloud-native architectures. Skilled in Generative AI, LLM integrations, prompt engineering, and exploring emerging AI patterns such as Retrieval-Augmented Generation (RAG) and Agentic AI systems. Passionate about building enterprise-scale AI infrastructure that enables intelligent automation in SaaS platforms.

TECHNICAL SKILLS

Programming: Python, SQL

Backend Development: Flask, REST APIs, AWS CLI

Cloud Platforms: Amazon Web Services (AWS), EC2, S3, RDS, IAM, VPC, Route 53, SNS, SQS, CloudWatch

AI/ML: Supervised Learning, Classification, Deep Learning, CNN, Transfer Learning, Feature Engineering, Model Evaluation (Accuracy, Precision, Recall, F1-Score)

Generative AI: LLM Applications, Prompt Engineering, Retrieval-Augmented Generation (RAG – foundational knowledge), Agentic AI Systems

Data Engineering: ETL Pipelines, Data Preprocessing, Data Cleaning, Model Deployment, Workflow Optimization

Data Tools: Pandas, NumPy, Scikit-learn, TensorFlow

Visualization: Power BI, Tableau, Matplotlib, Seaborn

Cloud Operations: Infrastructure Monitoring, Alert Configuration, IAM Security, Automation, Root Cause Analysis

DevOps Exposure: Version Control (Git), CI/CD fundamentals, Containerization concepts (Docker – foundational knowledge)

WORK EXPERIENCE

Process Associate – Genpact

Jan 2025 – Sep 2025

- Supported enterprise-scale SaaS financial workflows by analyzing backend operational data and resolving 50+ daily technical support requests within defined SLAs (95% on-time resolution).
- Performed root cause analysis (RCA) on workflow failures and system integration issues, reducing repeat incidents by 20%.
- Collaborated with engineering and product teams to troubleshoot API-related issues and improve data flow reliability across distributed systems.
- Analyzed structured datasets to identify recurring risks and performance bottlenecks in financial automation processes.
- Contributed to process optimization initiatives by documenting system behavior, monitoring logs, and identifying automation improvement opportunities.
- Maintained 98% quality score while operating in high-volume, data-intensive environments requiring strong analytical and problem-solving skills.

Machine Learning Engineer Intern – TheSmartBridge

May 2024 – Dec 2024

- Developed and evaluated 6+ supervised machine learning models using Python, Scikit-learn, and TensorFlow for structured and image datasets (10,000+ records).
- Designed data preprocessing pipelines including feature engineering, normalization, and model validation workflows.
- Improved model performance by 15% through hyperparameter tuning and optimization techniques.
- Applied transfer learning with CNN architectures for image classification tasks.
- Implemented model evaluation metrics including Accuracy, Precision, Recall, and F1-score for production-readiness assessment.
- Deployed ML solutions in cloud-based environments and gained exposure to scalable AI workflow design.

PROJECT EXPERIENCE

LLM-Based Intelligent Document Processing (Academic Project)

- Built a prototype Generative AI application integrating LLM APIs for automated text extraction and summarization.
- Explored Retrieval-Augmented Generation (RAG) concepts to enhance contextual response accuracy.
- Designed backend workflows using Python to process financial-style documents and structured data.
- Evaluated performance and optimized prompts for improved response quality.

EDUCATION

Master of Science in Data Science

2022 – 2024

St. Francis College for Women, Hyderabad

CGPA: 8.98

Bachelor of Science in Mathematics, Statistics, Computer Science

2019 – 2022

St. Ann's College for Women

CGPA: 8.06

CERTIFICATIONS

- Google Analytics Individual Qualification
- Certification in Social Media Analytics
- Certification in Introduction to Social Media Analytics
